OmniAire 1200V is an extremely versatile, high performing medium sized HEPA air scrubber. It is used for removal of toxic mold, asbestos and lead dust during renovation and abatement projects, and for purifying air in commercial or factory sites and medical facilities. The 1200V's upright housing with large 10" wheels for stair climbing makes it easy to transport and setup. This variable speed machine can operate in horizontal or vertical position and meet the needs of your large or small projects. Additional accessories include intake manifold, flex ducting and quick clamps.
