

PREVENT[®]

SIMPLE, powerful filters.

SIMPLER magnetic, no-drill mounting.

THE PreVent® SYSTEM. Simply your best choice.

CUSTOM-MADE FILTERS for every air intake.

Easy-to-install. Custom-fit to stop airborne debris before it ever gets inside your HVAC coils and fins. The PreVent system is designed to fit your equipment and your needs—extending its life and saving you money on maintenance, energy and service.

Simply, the PreVent air filtration system is built for you. Our filters can be customized to meet any equipment air intake or ventilation inlet and outlet challenge—including those requiring pipe and electrical cutouts or special shapes. Plus, every filter comes with a five-year warranty.

Only air gets through PreVent filters.

Save on energy costs—equipment with dirty coils can use as much as 37% more energy than units with clean coils

Clean in minutes with a brush or hose

Protect all equipment, from icemakers to extra-large cooling towers

Will not shed fibers, absorb moisture or promote bacterial growth

Stands up to weather, UV rays, extreme temperature, corrosive chemicals and high-velocity air flow

Single, double or triple-layer construction

INSTALL IN MINUTES with magnets.

The unique PreVent system is a snap to install. Literally. Our innovative system requires no drilling or tools. Magnets mean our filters can be easily installed or removed in minutes, with no special service or equipment shutdown needed.

No metal? No problem. You can adhere our filters using a steel plate adapter with high-bond, high-tensile strength tape adhesive that can be affixed permanently to the surface.

Exceptional MagnaMount® strength.

Sold in packages of 12, these powerful neodymium “earth” magnets are extremely strong. They are tested to hold 11 pounds in a single, horizontal, straight-down pull. Patent Pending.

Model R magnetic stripping.

These customizable rigid, steel-framed, patented magnet-affixed filters are intended for interior use or protected outdoor positions.

MODEL R

THE BEST SERVICE. The fastest turnaround.

Our products are made in the U.S.A. Each PreVent® filter is custom-designed and manufactured on-site at our factory. Most filters ship within one week of ordering.

But faster turnaround is only part of our exceptional support. For 60 years, Permatron has delivered the best in innovative air filtration solutions for commercial equipment. Our dedicated sales and support team is known for their superior customer care, and are available to help with product consultation, measuring and ordering. We know one size does not fit all. That's why we provide our customers with a complete air filtration solution built for their unique requirements.

NOTHING IS STRONGER.

Unmatched for strength and durability, PreVent filters will stand up to the most extreme outdoor and indoor exposure. Our filters are crafted from fabrics chosen for low air flow resistance and high debris holding capacity. Better filtration means cleaner coils, improved energy efficiency and improved equipment performance.

“By using the PreVent filters, we've reduced our seasonal filtration costs by almost 70% and our maintenance and cleaning man-hours are about a third of what they were with the old filtration equipment.”

ANGELO CARRIERI
